

TAKE CONTROL OF YOUR FACILITIES

WHAT WE DO FOR CITIES & COUNTIES

E3 is the preferred design-build contractor in Texas, providing facility solutions that increase efficiency, resiliency, and sustainability. Our in-house engineers and contractors work hand-in-hand to develop and

complete efficient and effective projects, proactively addressing aging infrastructure to help clients avoid runaway energy costs and natural disasters. Our design and installation expertise is in HVAC

system replacements, LED lighting upgrades, indoor air quality, emergency power, solar energy, building automation systems, water conservation, building envelopes, roofing, retro-commissioning,

EV charging stations, energy auditing, and performance management services. E3 has completed over 300 projects, consulted with over 350 clients, and upgraded over 65 million square feet of facilities.

E3 KNOWS

- HVAC systems
- LED lighting designs & retrofit
- Building control systems
- Emergency generators
- Solar energy
- Energy analysis
- Water conservation
- Retro-commissioning
- Water meters
- Electric meters
- Central plants
- Performance management
- Building envelope & roofing
- Air purification systems
- EV chargers

Replaced over 4,000 HVAC units & installed 15,000 air purification systems

Installed over 1.5 million LED lamps

Over 65,000,000 square feet upgraded

Over \$450 million in installation contracts

Over \$110 million in energy saved and over \$25 million in ongoing annual energy savings

Completed over 300 projects

Installed over 1,000,000 square feet of roofing

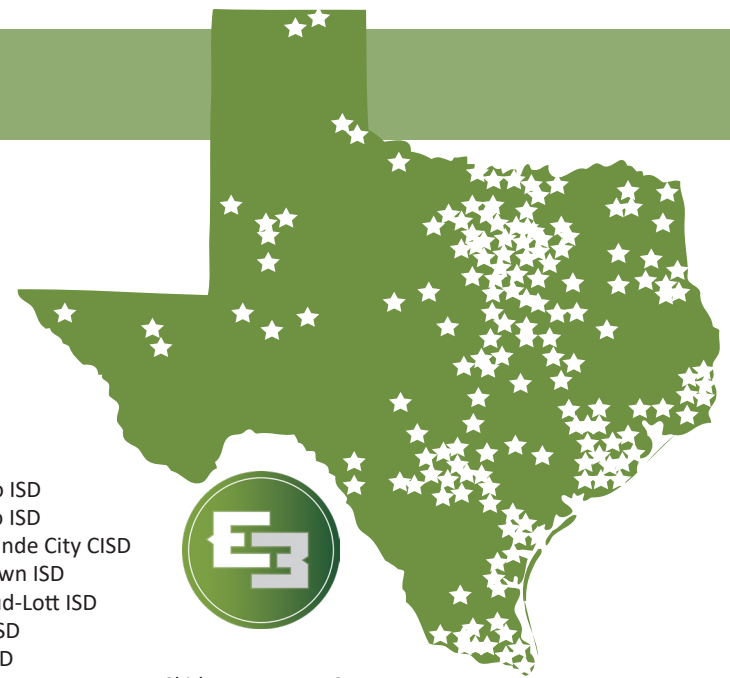

Managed more than 120 different subcontractors

Performed energy analyses in more than 350 facilities

“You’ll never hear us say, ‘It’s not our problem.’”

Don Meek,
E3 Director of Special Projects
