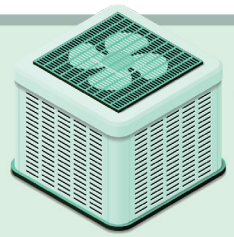
TAKE CONTROL OF YOUR FACILITIES

WHAT WE DO FOR CITIES & COUNTIES

E3 is a leading design-build partner in Texas, providing integrated facility and infrastructure solutions that increase efficiency, resiliency, and sustainability for cities and municipalities. Our in-house engineers and construction teams work hand-in-hand to develop and deliver efficient, high-impact projects, proactively addressing aging infrastructure to help clients avoid rising utility costs, regulatory risk, and system failures. Our design and installation expertise spans **HVAC**, **electrical**, **wastewater treatment systems** including technologies such as **BiCARBUS** and **Nanogas**, **LED lighting**, **indoor air quality**, **emergency power**, **solar energy**, and **building automation**. From water production and distribution to wastewater optimization and conservation, we help cities manage every drop efficiently. E3 has completed over 300 projects, consulted with over 350 clients, and upgraded over 65 million sq ft of facilities, including a wide range of municipal and water infrastructure projects across Texas.

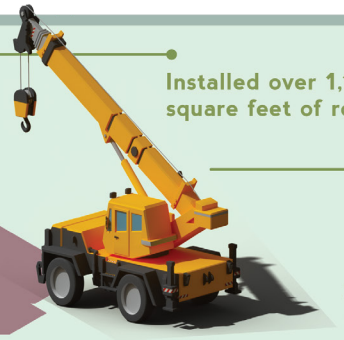


Replaced over 4,900 HVAC units & installed 15,900 air purification systems

Installed over 1,725,000 LED lamps

Completed over 375 projects

Over 75,000,000 square feet upgraded



Installed over 1,150,000 square feet of roofing

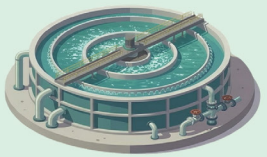
Managed more than 210 different subcontractors

Performed energy analyses in more than 375 facilities

Over $560 million in installation contracts

Over $110 million in energy saved

Innovative water treatment solutions



E3 KNOWS

- Wastewater Treatment
- HVAC systems
- LED lighting designs & retrofit
- Building control systems
- Emergency generators
- Energy analysis
- Water conservation
- Retro-commissioning
- Water meters
- Solar energy
- Central plants
- Performance management
- Building envelope & roofing
- Air purification systems
- EV chargers

"You'll never hear us say, 'It's not our problem.'"

Don Meek,
E3 Director of Special Projects
